DUSNA is a professional organization which fosters the professional development of nursing students and facilitates entrance into the profession by providing educational resources, leadership opportunities, and career guidance. Our organization strives to keep abreast of the current healthcare issues and concerns, legislation and other prudent issues at a preprofessional stage by speaking out and attending various conventions and bi-annual legislative programs. Most importantly, each and every nursing student of DUSNA grows as a whole person by their individual dedication and collaboration in striving to make a difference.

Members are encouraged to participate in local chapter meetings, advocacy initiatives, and community service projects. As a DUSNA member, students also enjoy membership in the Student Nurses' Association of Pennsylvania (SNAP) and the National Student Nurses'

Association (NSNA) and are provided opportunities to engage at both the state and national level.
